Copenhagen

## ABOUT ME

I am a first year student in Copenhagen School of Design and Technology. Only on my programme i discovered that i get huge satisfaction from developing various webpages, even though i had some previous experience with programming and relatively complex software. Currently I am distributing deliveries in supermarkets and I would like to start working in a field that i am studying and am enthusiastic about. Thanks to my school I am Currently learning Danish. I think I am managing my time pretty well, thanks to which my flexibility pleasantly surprises.

## SKILLS

Photoshop

Illustrator

Premiere Pro

Ableton

Java

PHP

JavaScript + jQuery

CSS

## PROJECTS

List of Personal Projects
